Some things were
just meant to go
together.

Honda Genuine
OIL FILTERS

**It's Not Just About Parts.
It's About Honda Genuine Parts.**

Honda has always been known for quality, performance and reliability. But what is it about a Honda that makes it stand out? Well, it all starts on the inside with the parts from which Honda cars are built.

Honda Genuine Parts are manufactured to the strictest of standards for an exact fit and precise operation. So for optimum performance and ultimate peace of mind, always insist on Honda Genuine Parts.

Honda Genuine OIL FILTERS

The Perfect Match For Your Honda.

Few things are more important to the overall performance of your Honda than the oil that goes into it, and the filter that keeps it clean. Unlike many other oil filters, Honda Genuine Oil Filters are designed for your Honda for maximum protection and improved engine life.

Honda's High Test Standards.

Honda Genuine Oil Filters meet or exceed Honda's testing specification standards for performance and durability.

Each Filter Is Filled With Honda Quality.

It's not only the paper that makes our oil filters better. It's also how our filters are designed and made – with superior materials and advanced technology. The result is the ultimate oil filter for your Honda designed to provide optimum performance and reliability.

A Better Filter. A Better Honda.

To best protect your investment and help ensure a long engine life, always use a Honda Genuine Oil Filter. Because when it comes to performance and reliability, Honda delivers. For peace of mind, insist on Honda Genuine Parts.

HONDA

Filter Paper

For maximum protection, variable density paper is used to trap contaminants helping to keep your oil clean.

P-Ring Seal Design

Superior seal design for solid contact between filter and engine.

Anti-Drainback Valve

Silicone material for optimum performance and sealing to prevent oil from draining out of filter when engine is shut off.
